

These are a great solution for identifying birds. They can easily clip and unclip from the cage wire as you move the bird from one cage to another. They measure  $1 \frac{3}{8}$ " long, and  $\frac{7}{8}$ " wide. Usually, the bird's band number, color, and other information is written on the tag with a fine line permanent marker. We have these available in WHITE.

Price: \$15.00 per package of 500 tags. Add \$5.80 for mailing cost.
